

The principles of Open Space Technology

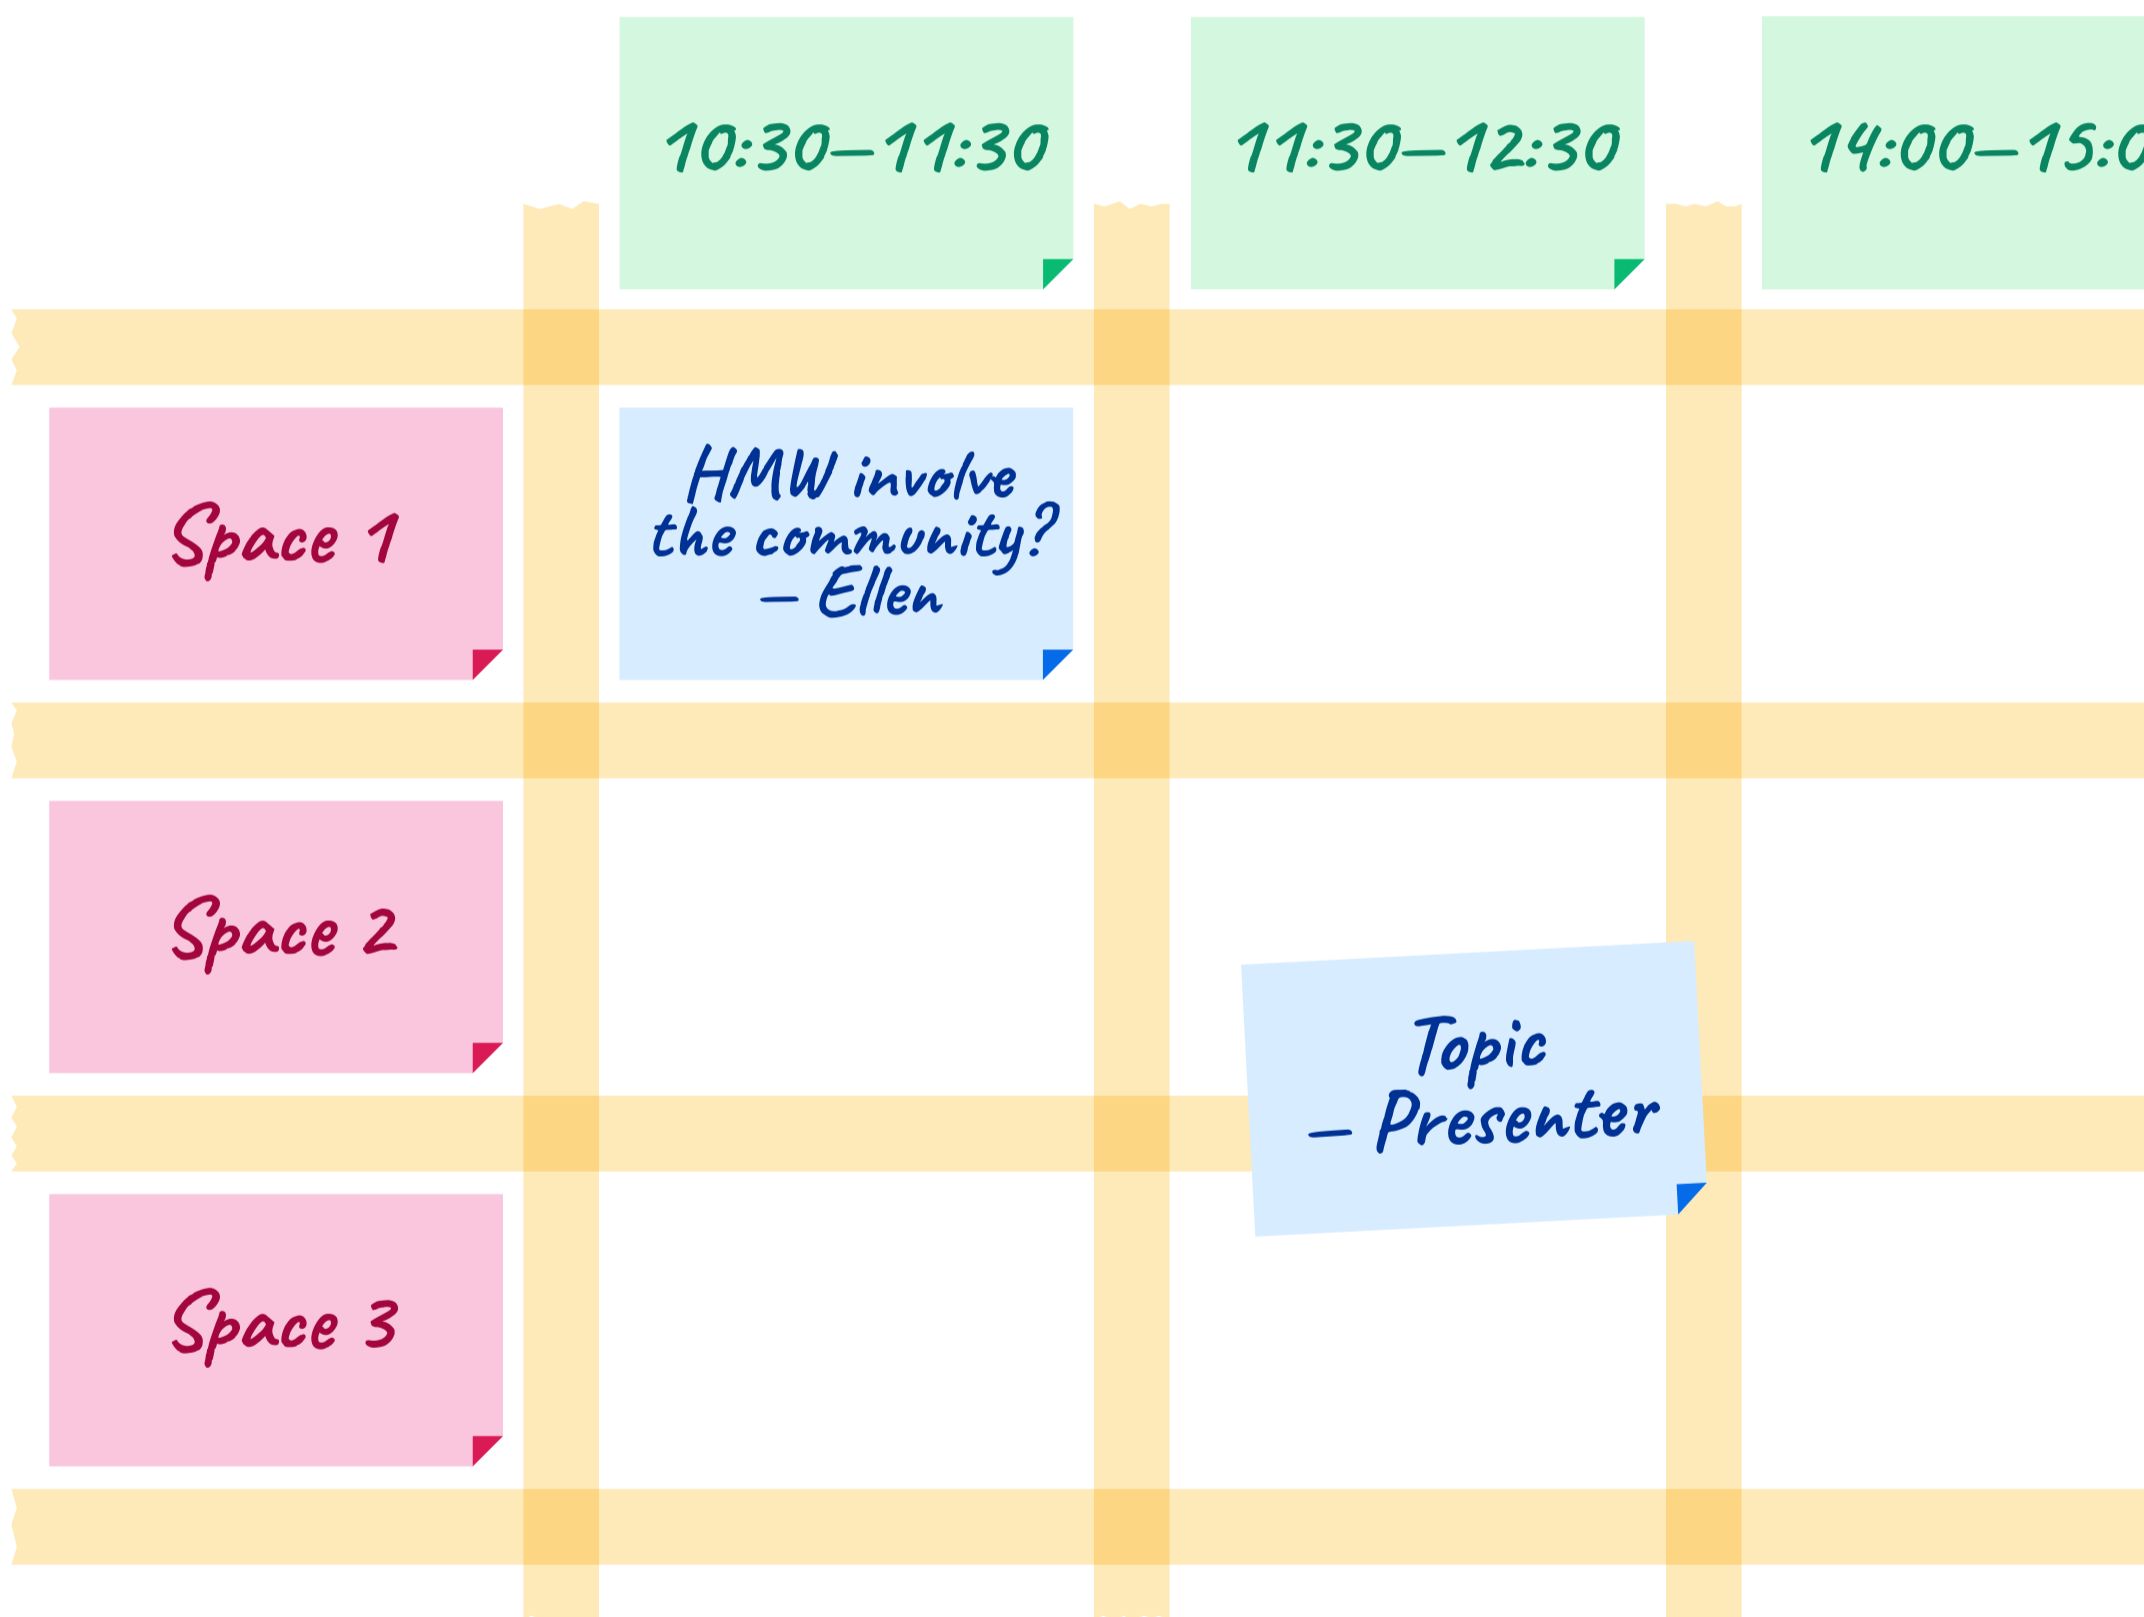

Whenever it starts is the **right time**.

Whoever comes are the **right people**.

When it's over, **it's over**.

Whatever happens is **the only thing**
that could happen.

Build a time/space grid

You will need...

📏 Tape 📝 Sticky notes ✍️ Markers

The law of two feet

If you think you are neither contributing nor learning, thank the people at the table **and move!**

Expect the unexpected
